

# **User Consultation 2005 – Future Development of PESA**

## **Public Expenditure Statistical Analyses 2005**

7<sup>th</sup> April 2005

CM 6521

The form and content of PESA, Departmental Report common core public expenditure tables, and Supplementary Budgetary Information are being reviewed in 2005 through a user consultation exercise. The exercise aims to consult users of public expenditure publications in order to refine the content, subject to Parliamentary approval for Supplementary Budgetary Information, and better meet the needs of users.

The Editor would be grateful for notice of any individuals or organisations who wish to be consulted as part of this exercise and for more general comments on how PESA could be made more useful to users. If you would like to be involved please contact the Editor at the following address:
